Mini LED Projector "The Atom" - 640x480, 10 Lumens, 200:1

Product code: CVGI-E59

Quite possibly the world's smallest projector - introducing The Atom - mini portable projector that literally fits in the palm of your hand!

Size: Just how big is it exactly? **5.5 cm x 6 cm x 3.5 cm**. No you're not dreaming - **The Atom** is 3.5 cm thick! Quite honestly, this is one of the, if not the, tiniest projectors you've ever seen!

Performance: But don't let its size fool you - this ultra-mini projector packs a punch that will bring presentations to life! Or hook up your game console, MP6 player, or portable DVD player to **The Atom** and play your favorite movies or games on the big screen! The Atom easily provides 60 inch display resolution for a fun time every

time!

Durability: Despite being built like a tank, **The Atom** is surprisingly light, tiny and compact. That's because this tiny projector is constructed from heavy gauge extruded aluminum for strength. Well-vented for excellent heat dissipation and attractive to behold, The Atom is the future of wall projection in a small package.
